MEMORANDUM FOR: Deputy Director of Central Intelligence  
Deputy Director for Intelligence

FROM: Director of Central Intelligence

SUBJECT: CIPC

I'd like to get your ideas when I return on what we want CIPC to undertake, how we should use that instrument in general, and what of the projects suggested here should be tasked to special task forces.

This comes down to a question of how much of the CIPC superstructure is useful and how much of it spins around on work other people have to do.

  
William J. Casey
